Warrenite

Mr. Cousins

Log of 1953 Warrenite

Dedication

The staff of the Warrenite takes great pleasure in dedicating this annual to Mrs. Rosalie Moles, our homemaking teacher during the past eight and one-half years.

In paying tribute to this gracious lady we are ever mindful of the high standard of personal conduct and achievement which she held for herself and others, of her untiring efforts to serve and help us all satisfy our own high motives, and especially of her keen understanding, enthusiasm, and appreciation of her own work, our school, and our community. Through quiet dedication, yet persistent effort, Mrs. Moles has given us a splendid example of efficiency and human achievement - worthy of the imitation of all.

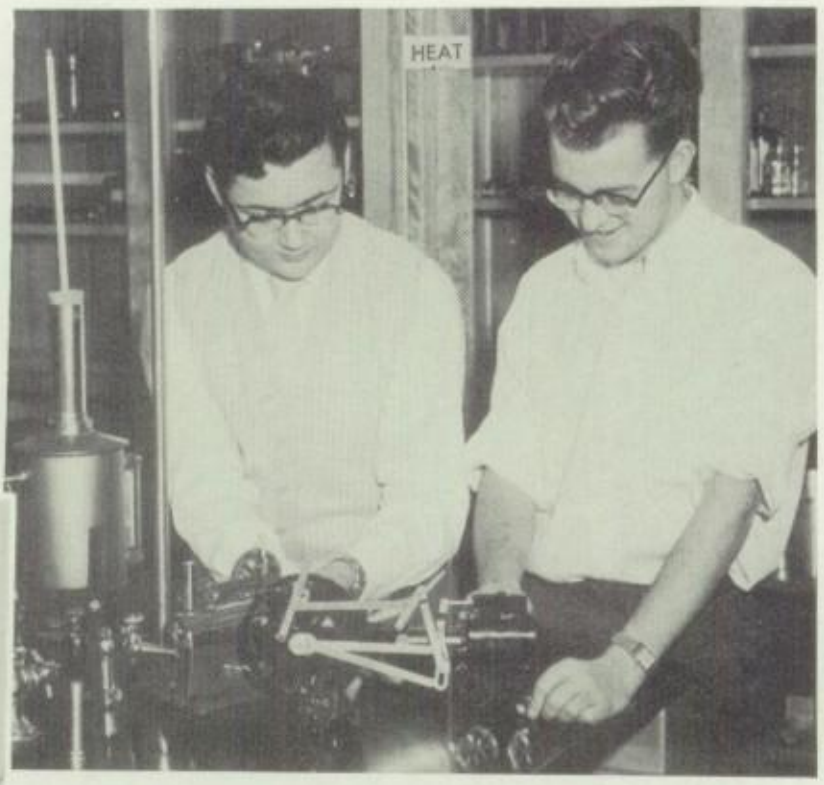
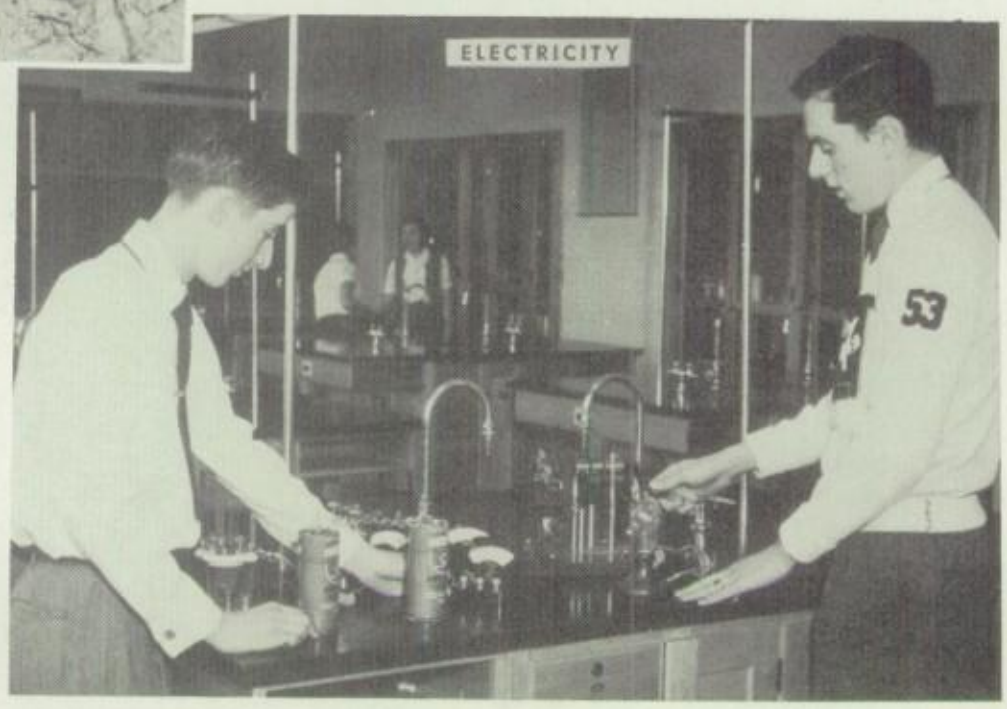
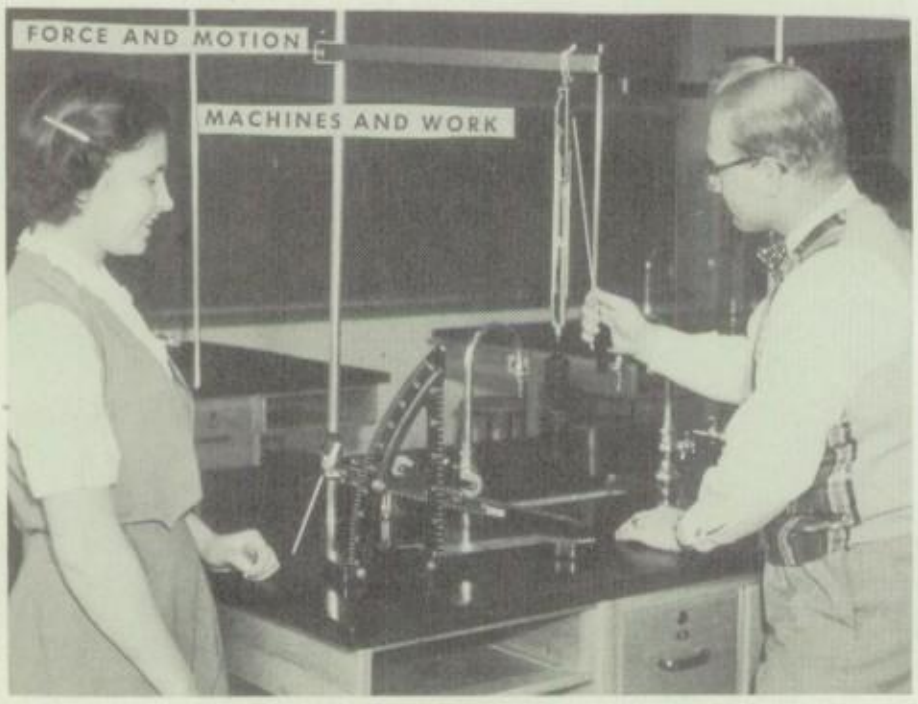
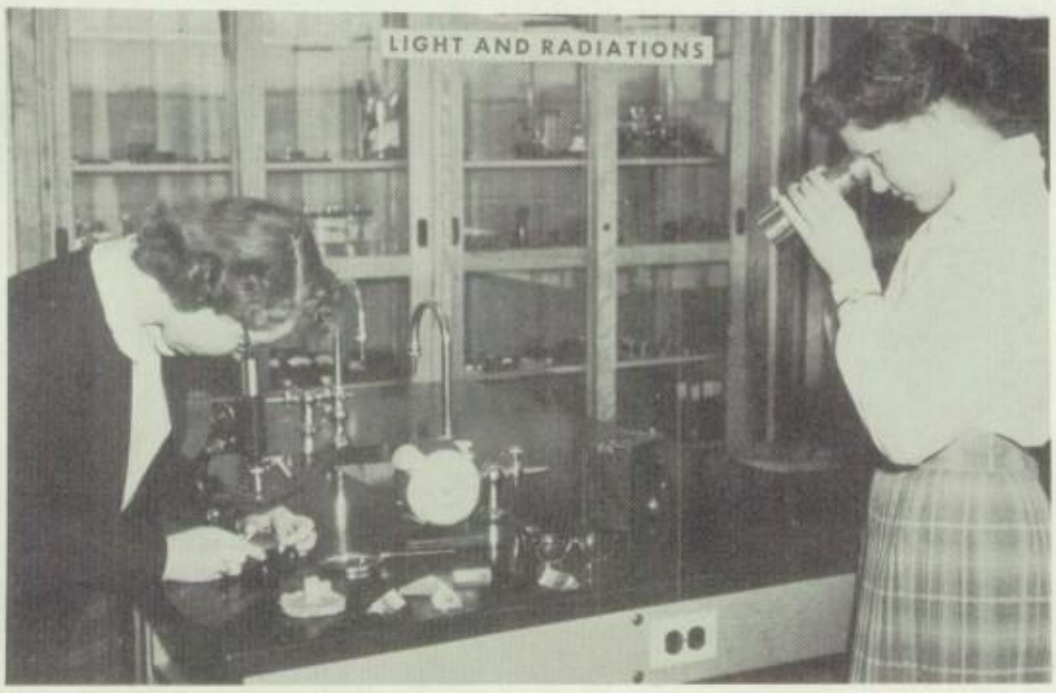
PHYSICS









Physics is the study of energy. It deals with motion, heat, light, sound, and electricity. Anyone who is interested in the "what", the "how", and the "why" of the things that happen in every day life, will be interested in Physics. It is applied from the time the alarm clock rings in the morning until the last light is turned off at night.

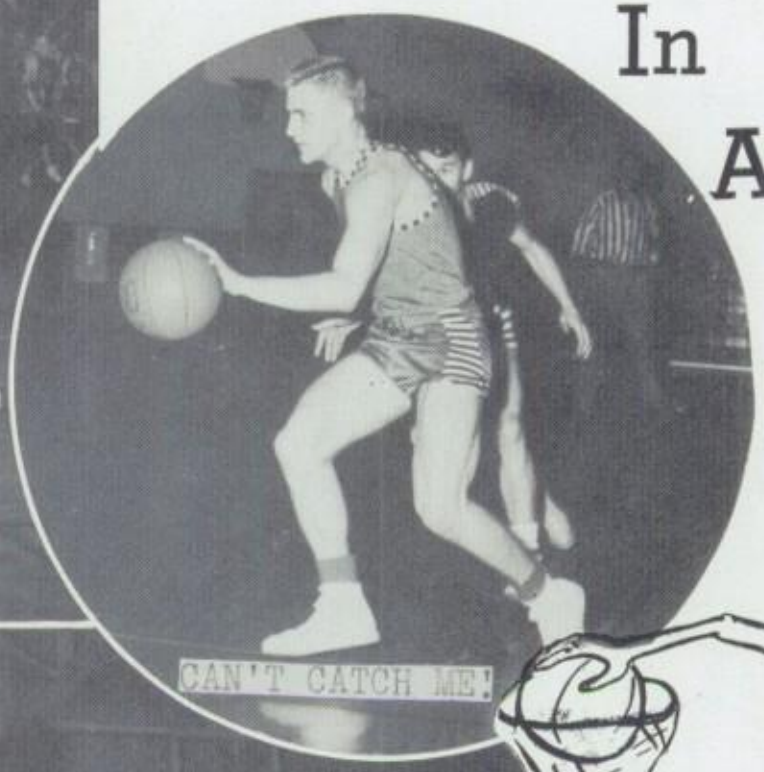
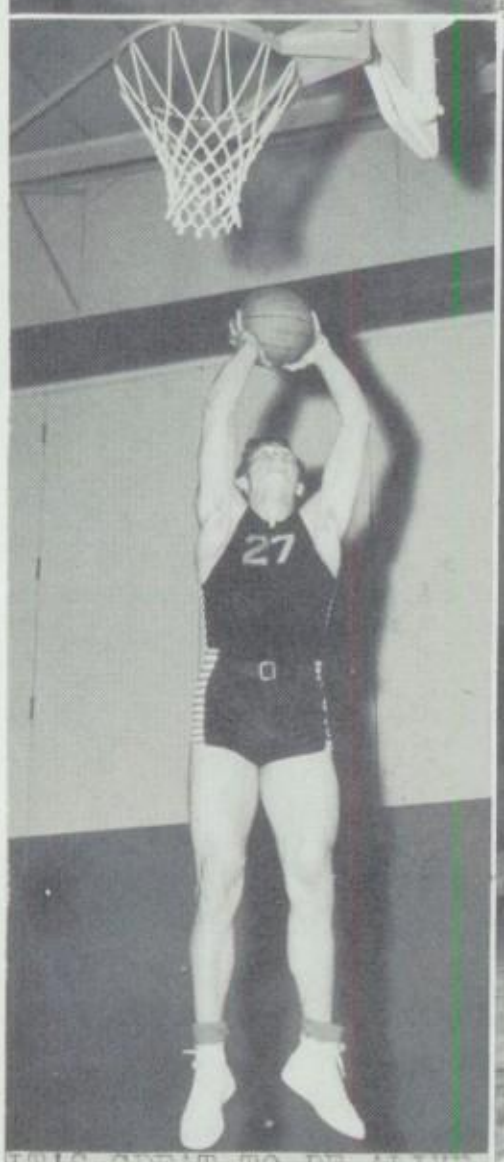
Varsity Basketball In Action

HEY, HEY BUTCH!



CAN'T CATCH ME!



IT'S GREAT TO BE ALIVE!

A BASKET?

I CAN REACH HIGHER?

We wish to take this opportunity to express our thanks and appreciation to the businesses of this and the surrounding communities for their co-operation in making this yearbook possible.
